Violation of Standard Condition No. 7: "The defendant shall refrain from excessive use of alcohol and shall not purchase, possess, use, distribute, or administer any controlled substance or any paraphernalia related to any controlled substances, except as prescribed by a physician."

Nature of Noncompliance: On November 21, 2019, the offender submitted a urine specimen which returned positive for amphetamines. The results were confirmed by the national lab as positive for methamphetamine.

U.S. Probation Officer Action: On December 10, 2019, Flores reported to the probation officer to discuss the confirmation of the urine specimen. Flores admitted to taking an unknown pill from an associate. He signed an admission form for his use and appeared remorseful for his actions. Additionally, Flores signed a release of confidential information so that his girlfriend could speak with the probation officer regarding any concerns for added accountability.

On December 9, 2019, Flores began a co-occurring treatment program. Based on the recent treatment referral, this officer respectfully recommends that no adverse action be taken at this time. Rather, it is recommended that Flores continue with his treatment services to work on developing appropriate coping skills.

Accordingly, the Court reserves the right to revisit these allegations in the future. In addition, should Flores incur any further violations, the Court will be immediately notified.
